

SDPT1

Whelen Siren Diagnostic and Programming Device

The SDPT1 is a palm size device which makes maintaining your All-Hazard Alert System as simple as reading a screen. Use it to CONFIGURE, RE-CONFIGURE, COLLECT DIAGNOSTIC DATA and ACTIVATE from a specific siren station.

The SDPT1 is now available for use with many different Whelen All-Hazard Warning Systems within our 8 and current 10 digit protocol. The SDPT1 is the palm size with Whelen's palm size software built-in.

■ **SDPT1 - Whelen Provides the PalmPC as well as the Software Program -**

The technology of PalmPC's is always being upgraded. What is new this month will be old next month. Whelen sells the SDPT1 device with that in mind. We are constantly upgrading our software to match the devices on the PalmPC market. Whelen has always had a commitment and a corporate philosophy to provide the latest technology available.

■ **CONFIGURE - Allows User to Extract the Current Configuration from the Siren Station -**

Unique capability of determining configuration set-up.

■ **RE-CONFIGURE - Allows User to Make Configuration Changes to a Specific Siren Station -**

Typically factory-set configurations are standard, but the SDPT1 now allows the user to change configuration settings in the field.

■ **COLLECT DIAGNOSTIC DATA - Allows User to Collect Data from a Specific Siren Station -**

Perhaps the most important feature. Standard within our software is the capability to display the siren station's functional status of the following:

- System's Power
- Siren Amplifiers
- Siren Drivers
- DC Voltage
- AC Voltage
- Rotor Position
- Signal-to-Noise Ratio
- Intrusion
- Bias
- Current Revision of the Control Board Firmware
- The Command Currently Being Executed
- Activation Counter
- Loss of AC Counter
- Marginal Radio Receptions
- Low Battery Shutdowns
- Minimum DC Voltage
- Maximum DC Voltage

■ **ACTIVATE - Allows User to Activate from Any Station -**

Within the software is the capability to activate the following functions:

- All Available Tones
- 16 Digital Voice Messages
- Rotor Positioning
- Arm
- Dis-Arm
- Siren On
- Siren Off
- Test Clear
- Transmit Off
- Strobe Test
- Strobe On
- Strobe Off
